

# SOFTPRO<sup>®</sup> BANKING

The SoftPro Banking platform in SoftPro Select allows users to securely send and receive wire transfers from a network of integrated banks within the U.S.

## With SoftPro Banking you can:

Seamlessly receipt incoming wires to the appropriate ledger

Search incoming and outgoing wires by numerous fields

Designate specific user(s) as “approvers” for outgoing wires

Approve or reject, and then submit, outgoing wires

all without leaving SoftPro Select.

## SOFTPRO BANKING PRICING

Three service package options for SoftPro Banking are available based on order volume. You may select the service package that best fits your business needs. Each package includes a fixed number of orders for a minimum monthly fee. A per-order fee will apply for any order in excess of the package's included order quantity during a given billing cycle. An "order" is defined as a ProForm order in which you use the SoftPro Banking feature to receipt incoming payments and/or initiate disbursement instructions.

**All service packages are subject to a \$1,995 setup and configuration fee per bank connector.**

### **SERVICE PACKAGE – OPTION 1**
